## 1 Introduction

The IELTS Band Score is a globally recognized measure of English proficiency, evaluated across four modules: Listening, Reading, Writing, and Speaking. Each module is scored on a scale from 0 to 9, with 9 indicating an expert user of English. These scores play a vital role in university admissions, immigration processes, and employment opportunities worldwide.

## 2 How is it Calculated

The IELTS Band Score is calculated by averaging the scores of the four modules (Listening, Reading, Writing, and Speaking). The average is rounded to the nearest 0.5 or whole number:

- Scores ending in .25 are rounded up to the next 0.5.
- Scores ending in .75 are rounded up to the next whole number.

### The Manual Way:

Listening: 7.5, Reading: 8.0, Writing: 7.0, Speaking: 7.5

Average =  $(7.5 + 8.0 + 7.0 + 7.5) / 4 = 7.5$

Overall Band Score = 7.5
